Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1, 2, 6, 7, 8, 9 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Fujisawa et al. (US Patent No. 7149463).

As to claims 1 and 2, with reference to Fig. 16, Fujisawa et al. discloses a fixing apparatus (60) comprising:

a heating medium (heating roller 62) that heat-fixes an unfixed image onto a recording medium;

a heating section that heats said heating medium (see Col. 7 lines 34-40) ; and

a sheet separation guide plate (80) having a guide surface that guides a heat-fixing surface of said recording medium, on which said unfixed image has been heat-fixed and that is transported along a predetermined sheet path, in a direction of separation from said heating medium;

Art Unit: 2861

wherein there is provided on said guide surface of said sheet separation guide plate a plurality of step parts (84, 84') raised along a guide width direction of said guide surface and a recess formed between the step parts.

As to claim 6, with reference to Fig. 31A-C, Fujisawa et al. discloses the claimed limitation " wherein a guide width direction center edge opposite said heating medium of said guide surface of said sheet separation guide plate is formed so as to project toward a sheet transportation direction upstream side more than both guide width direction end parts of said guide surface". See Col. 16, lines 48-67.

As to claim 7, Fujisawa et al. teaches the limitation " wherein said guide surface of said sheet separation guide plate is covered with low-friction material". See Col. 7, lines 51-54; Col. 7, line 58 to Col. 8, line 3.

As to claim 8, Fujisawa et al. teaches that the sheet guide plate (70, 80) is a metal plate. See Col. 7, lines 49-65.

As to claim 9, Fujisawa et al. teaches the claimed image forming apparatus having the claimed fixing device. See Fig. 1 and Fig. 16.

Allowable Subject Matter

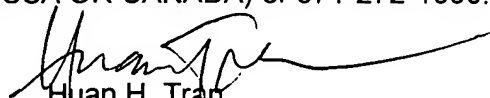

4. Claims 3, 4, 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The following is a statement of reasons for the indication of allowable subject matter: Claims 3-5 are allowable over prior art of record for the reason the limitations further recited in the claims are not taught or suggested by prior art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huan H. Tran whose telephone number is (571) 272-2261. The examiner can normally be reached on at work on T-F from 6:30am to 5pm.
